

## Daniel L. Scott

---

*Vice President Enterprise Services & CIO  
Northrop Grumman Defense Systems*

Daniel Scott is chief information officer (CIO) and sector vice president, Enterprise Services, for Northrop Grumman's Defense Systems sector.

In this role, Scott has executive responsibility for operations and execution of Information Technology, Security, and Digital Transformation via Enterprise Services for the Defense Systems Sector. As a member of the Defense Systems leadership team, Scott also provides strategic guidance to ensure fulfillment of the sector's business and financial commitments.

Scott has more than 30 years of service with Northrop Grumman in the areas of Product and Systems Design & Development, Systems Engineering, and Program Management. Most recently, Scott was Chief Information Officer (CIO) and sector vice president, Enterprise Services for Northrop Grumman's Technology Services sector. He also supported the Aerospace Systems sector as Program Director, Research Technology and Engineering, with focus on program integration and systems engineering across the Basic Research, Applied Technology, and the Advanced Design organizations.

Previously, Scott served as the deputy capture leader for a corporate priority win program, where he provided team leadership and capture execution for integrated product teams and functional disciplines resulting in Northrop Grumman winning its largest (\$30B-\$90B) enterprise strategic program designed to provide the next generation of long range global security.

In support of efforts to enhance corporate wide engagement, Scott also serves as an executive advisor to OneAATG, a corporate-wide Employee Resource Group focused on impacting bottom-line performance, top-line growth, and enhancing Northrop Grumman's competitive advantage.

Scott holds a Bachelor of Science in Aerospace Engineering from the University of Maryland and a Master of Business Administration from the University of Southern California. He serves on the University of Maryland Aerospace Engineering Department's Board of Advisors, and is the Northrop Grumman executive sponsor to North Carolina A&T State University. He's completed several advanced management programs to include the General Management Program – Harvard Business School, the Aerospace Systems Program Management Conference, and campaign and capture leadership development programs.

*Northrop Grumman solves the toughest problems in space, aeronautics, defense and cyberspace to meet the ever-evolving needs of our customers worldwide. Our 90,000 employees define possible every day using science, technology and engineering to create and deliver advanced systems, products and services.*
